

KEI WELDING TABLES

KEI offers a choice of five table tops to meet all types of welding needs. Tables are constructed of 14 gauge steel and designed for operator convenience. Four leveling feet provide stability. A handy workshelf with acoustic padding is located 10" below the table. Curtains are available in yellow or green and offer visibility while eliminating harmful rays. Both meet OSHA eye protection requirements. KEI Welding Tables have ample room below for most welding units, or for a standard or filtered fume exhauster.

MODEL 8030

Complete as pictured: includes curtains that wrap completely around the welder.

MODEL 8050

Model 8050 is a solid table with a three-sided booth. The booth is baffled to create an even airflow across the open face. A 6" diameter outlet is located on top of the booth for connection of a fume exhauster.

WELDING TABLE SPECIFICATIONS

MODEL	DESCRIPTION	TABLE SIZE			UNIT HEIGHT	CURTAINS		
		D	W	H		NO.	SIZE	WT
B010	Solid Steel	2'	3'	34"	7'	2	4' x 5'	140

- * REINFORCED STEEL CURTAIN RODS
- * EXPANDABLE WITH ADD-ON-UNITS
- * CURTAINS MEET OSHA EYE STANDARDS
- * EASILY ASSEMBLED
- * FIREBRICK LINING
- * LARGE VIEWING WINDOWS
- * FIRE RESISTANT CURTAINS

KEI WELDING BOOTHS

Two sizes of Welding Booths are available: 48" X 45" square and 60" X 60" square. Both are easy to set up with locking metal fittings. The free standing corner booths include 3 equal panels and a front panel with doorway and viewing window. Also included is a 18" X 45" steel work shelf for firebricks or steel grills. It can also be turned over and used as a smooth work area for other types of welding. The doorway and viewing window are equipped with OSHA approved curtain material for full eye protection.

To expand your number of welders, Model 8170 is the add-on booth for 8160. Model 8180 is the corner booth for the large 60" unit. The booth is roomy enough for two welders to work at the same time. The viewing window is 21" X 8". Model 8190 is the add-on-booth for Model 8180. Firebricks and steel grills may be ordered for all benches. Each booth can be equipped with all brick or all grill or 1/2 of each.

MODEL 8170

MODEL 8160
